

Parking Guide for Community Christian Church

1903 Summerland Street
Rancho Palos Verdes, CA 90275
(310) 832-7304

Contacts: Pastor Justus Ghormley or Amanda Krugh (Office Admin)

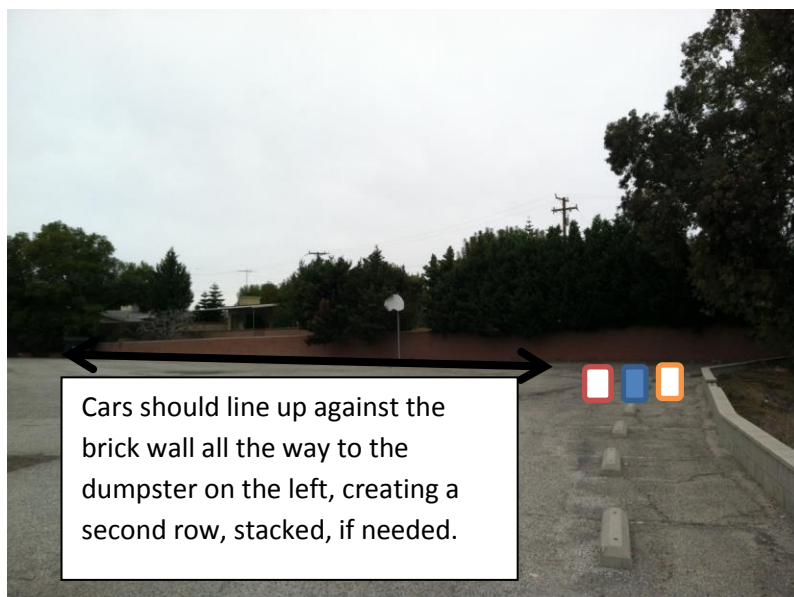

Summerland Street: *The road adjacent to the church parking lot.*

We have been offered alternative parking at Community Christian Church for several years, to offset the cost of parking at the San Pedro dock during our weeks at Campus By the Sea. *This is a major gift to us and to our students, and we need to **respect and honor the space, if we choose to use it.***

It is about a 10-minute drive to and from the San Pedro dock. Be sure to plan ahead if you want to use the church for parking.

- 1) If your students or staff would like to use the space, please coordinate with the Camp Director for the week. Find out how many people are planning to park there, and arrange cars/drivers to shuttle folks from the church to the dock.
- 2) Please have one person call the church the week before you plan to park there, and give them the dates you'll be there and the estimate of how many cars.

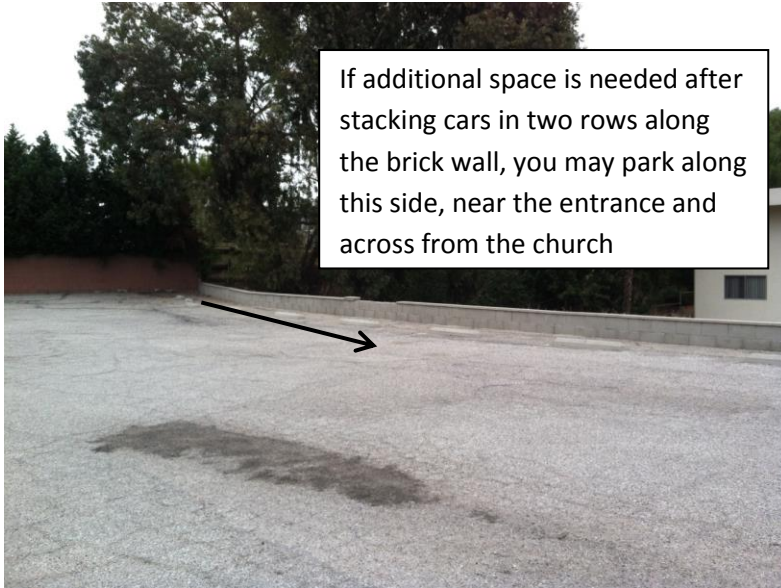

- 3) There are designated areas and instruction for how they ask us to park our vehicles. Please see the photos below.
- 4) After camp, it would be great if you could send a thank you note to the church to thank them for serving us in this way.
- 5) This parking is **ONLY AN OPTION**. You may park in the Catalina Express lot and **staff may expense the cost**. Students are responsible for paying for their own parking.

This area is off limits,
please keep free for
preschool families

If additional space is needed after
stacking cars in two rows along
the brick wall, you may park along
this side, near the entrance and
across from the church

Thank you for respecting these guidelines!

Please understand that parking here is your own risk, and the church holds no responsibility for the safety of your vehicles. Please do not keep anything valuable in sight.

We hope this serves in having a great week at camp. 😊
